SAFE • EFFECTIVE • ECONOMICAL

GSA Contract # GS-07F-5659P

GENERAL PURPOSE & INDUSTRIAL CLEANER

MarineClean: INTEK MarineClean is an exceptionally effective **super concentrated**, heavy duty, low foam industrial degreaser, cleaner, and oil emulsifier. **One gallon of MarineClean easily mixes with water to make up to ONE HUNDRED GALLONS of cleaning solution!** Easily removes everything from heavy greases and oils for industrial uses to dirt and grime for general purpose cleaning. Safe for virtually all surfaces and material of construction. **Nonflammable, Nonhazardous, and Biodegradable.**

ANTIFOAM

INTEK-8 ANTIFOAM: is a **nonsilicone based** nonhazardous, biodegradable, **NSF approved**, organic product designed to control excessive foaming in systems with critical heat transfer surfaces such as **desalination systems and evaporators**. It is also well suited for use in vacuum waste transfer, storage and processing systems.

DESCALER

INTEK-CSR is a proprietary blend of **nonhazardous, biodegradable**, organic compounds that rapidly and safely **removes calcium carbonate**, magnesium hydroxide, and **seashell encrustations** at room temperature. It is chelant based and easily disposed of after use. Suitable for a wide range of applications, this easy to use and store **powdered product** is an exceptionally safe yet effective alternative to corrosive and dangerous acid based alternatives.

CORROSION & SCALE REMOVER

INTEK-FOREX (Heat Transfer System Cleaner) is a **nonhazardous, biodegradable, near neutral pH** product formulated to rapidly dissolve metal corrosion and scale from heat transfer systems (such as **heat exchangers and engine cooling systems**), without damaging the base materials and without the hazards associated with acidic or alkaline products.

COMMERCIAL VEHICLE WASH

INTEK TRANSCLEAN is a highly concentrated, near **neutral pH**, light foaming, **power wash cleaner** and oil emulsifier. This **nonhazardous, biodegradable**, one step cleaner **eliminates the need for acidic and caustic chemicals** and the disposal problems they produce. When **mixed with water at a ratio of 1 to 100**, removes dirt, road grime, oil, and diesel soot and is completely **safe for use on chrome, aluminum, clearcoat, paint**, or most synthetic materials such as plastic or vinyl.

DESCALER

INTEK-Hx(CS) is a unique, **nonacidic, noncorrosive** solution, specially formulated to remove **calcium sulfate scales and deposits**, yet is not harmful to materials of construction including synthetics and nonmetallic. It is essentially **nontoxic**, and easily disposed of after use.

INDUSTRIAL TANK CLEANER

INTEK SEPREX is a high speed **tank and piping system cleaner** that serves as a **nonhazardous, biodegradable and non-flammable** alternative to traditional cleaners and petroleum based products. Safely **removes most hydrocarbon products** as well as the dirt, grime and contaminants they entrap. Suitable for exceptionally wide scope tank cleaning challenges, **ranging from vegetable oils and petroleum based lubricants to synthetic coatings**, and polymer binders. In addition to cleaning effectiveness and safety, provides exceptional waste reduction by **allowing user to "phase separate" the collected contaminants and reuse the remaining cleaning solution over and over again.**
