INTEK ScaleAway

(A Combined Toilet Cleaner and Sanitary Line Scale Remover and Inhibitor) is a blend of nonhazardous, biodegradable, organic compounds that contains no mineral acids or their associated hazards. It cleans, deodorizes, and removes stains from toilets, while safely removing and inhibiting calcium carbonate scale/encrustation in sanitary lines, at ambient temperature.

SCALEAWAY is a triple-action, chelant based formula that interacts with the carbonate portion of scale, as well as with the calcium portion, readily effecting its dissolution; it also interacts with polyvalent metalions (e.g., calcium) in the waste stream, effectively inhibiting their precipitation as scaling factors.

SCALEAWAY effectively cleans toilets, and removes and inhibits scale in sanitary lines, without attacking materials of construction, and without adversely effecting enzymatic or microbiotic treatments.

SCALEAWAY is a nondusting, blue crystalline powder that readily dissolves in water, and is easily applied to toilet surfaces using conventional housekeeping methods. There are no harmful or offensive chemical odors or fumes during application.

SCALEAWAY offers substantial savings by eliminating the unnecessary packaging and shipping of water associated with aqueous products, and by eliminating unnecessary drum disposal costs.

PHYSICAL & CHEMICAL PROPERTIES

Appearance	Blue crystalline powder
Odor	Slight wintergreen
Specific Gravity (at 75 F).....	>1.23
pH (of a 2.0% solution).....	3.5
Solubility in H ₂ O.....	Complete

INTEK ScaleAway

BENEFITS

- Safe for personnel: No chemical fumes, Noncaustic, Nonflammable, No mineral acids
- Safe for equipment: Exceptionally low metal corrosion rates. No adverse effect on synthetics
- Safe for the environment: Biodegradable, Nonpolluting. Will not bioaccumulate
- Removes only stains and scales, and not the underlying materials of construction.
- Works effectively at room temperature
- An extremely cost-effective product that eliminates the need for separate black water line descaling treatment or chemicals.
- Eliminates additional work for ship's personnel by combining sanitary line descaling and inhibition with the existing housekeeping function of cleaning toilets.
- Mixes readily with water.
- Easy to use.
- Leaves a fresh, clean scent.
- Nonfoaming.
- Inexpensive to ship and store.
- Will not harm plumbing or septic systems.
